California is spread out at your feet from Athens-on-the-Hill. A cool sea breeze blows here all summer-there is no frost in winter. Athens will have every city convenience-further, the home-builders will be protected here-restrictions will ensure beauty and good taste, but work no injustice to any purchaser.

### 20 Minutes from Sixth and Main

Athens is practically close-in property. Reached at present by the Gardena division of the Redondo line, sor by the Interurban San Pedro line; work is already under way on a third fast and more direct route, which will guarantee to Athens residents a regular running time of twenty minutes or less between Athens and Sixth and Main streets.

Ins brings Athens considerably closer to the business section of Los Angeles than many residence districts within the city limits. Athens is near San Pedro, by car, also—a fact which will be of moment in determining values here. Further, it is in the strip of land between Los Angeles and San Pedro, which must be included when Greater Los Angeles comes into being.

Nine miles of 100-foot boulevards with central parkways now being graded at Athens. Cement curbs and walks being laid. CORPORATIONS WIN ASSESSMENT FIGHT.

He lounged, with a half-smoked cigar in his hand, listening to the roar of the fight.

Occasionally he would mildly suggest that a cut of 40 per cent. or 50 per cent. be made.

Al Graham played mental hop-scotch, coquetting first with one side and then the other-backing off in alarm when anybody showed a sign of agreeing with him, evidently fearing he would have the responsibility of deciding the question.

Capt. Brady took the part of an angel of peace. He kept holding out seductive offers of compressible, which were spurned until the members of the board began to be jaded and wearled.

COMPROMISE EFFECTED.

At last Wilson and Brady began maneuvering for a compromise.

Brady, after the wrangle had gotten to the fighting point and every one was crawling out of the top side of his collar, suggested that Ward's figures be cut 50 per cent.

Ward's deputy, Mallard, gave a positive shriek of anguish.

"Why, that would reduce their assessments even more than they ask themselves," he cried in astonishment.

Alexander (wearily:) Make it a 20 per cent. reduction.

Brady: Make it a 25 per cent. reduction and I'll stay with you.

Graham (cautiously:) Can we agree to a reduction of 25 per cent.?

Patterson (beginning the fight over again:) Why not take the figures of last year and raise them 15 per cent.?

Brady: Unless you compromise this, I will vote to stand by Ward's figures.

Graham (alarmed:) Oh, unless this is going to be unanimous, I don't want to vote for it.

Wilson: Well, I won't vote for it.

I'll tell you that straight out.

Graham: What will you vote for?

Wilson (doggedly:) I want to go back to our old figures and raise them—not these Ward figures.

Patterson (hopefully:) We might raise our figures is per cent. over last year.

Brady (shrewdly:) I'll make it a

acter last year amounted to about \$6,000,000. Ward's figures were between \$12,000,000 and \$13,000,000 this year.

The stashing was not done amicably. It was a compromise among men who wrangled until they were physically and mentally exhausted.

Patterscon fought like a tiger to have Ward's whole system of assessing the corporations turned to the wall. He kept insisting, with monotonous tenacity, that the board's old figures be raised if per cent.

Alexander kept excitedly insisting that he was bunceed last year by the corporations. He demanded that Ward's system, if not his figures, be adopted.

Peter Wilson simply "stood pat" for kind treatment of the corporations. He compand, with a half-smoked cigar in his hand, listening to the roar of the fight.

Seriously.

While setting off fireworks at his home, No. 1338 Believue avenue, on the Fourth of July, Detective T. H. Zeigler sustained a wound on the index finger of his right hand by the explosion of a nigger chaser. It is feared that blood polsoning will result, as infection set in recently. Zeigler has practically lost the use of his right arm for a time. He suffered from pain in the arm yesterday and called on Police Surgeon Bonynge.

"I was showing some children how to light fireworks," said Zeigler, "and became careless. A spark from one of the nigger-chasers which I held in my hand fell on another and in an instant they were all shooting fire."

WASHINGTON, July 16.—In the
Persian correspondence in the portion
of the Red Book on Foreign Relations
which was made public by the State
Department today, is contained a
strong protest addressed by Mrs. Mary
Schauffler La Barce, formerly of Urumia, Persia, to American Minister
Debaysond Pearson at Teleran, against mis. Fersia, to American Sanisate Richmond Pearson, at Teberan, against the exaction by the United States government of an indemnity of \$50,000 for the murder of her husband, Rev. Bendamin W. La Barce, missionary, killed on Mt. Ararat by religious fanatics.

While beliquing that when an American citizen has been murdered because of the criminal laxity of a forcign government those dependent on him for support should be swarded a suitable indemnity, Mrs. La Barce said the matter would not be understood by the great mass of the people in this district, who would invariably know of it, as the Persian idea of blood money" is different from our civilized understanding of an indemnity. She adds: "Thus serious and lasting injury might be done to the mission cause for which we have already sacrificed so much, that I prefer to waive my rights as an American citizen, rather than to see this cause suffer."

In spite of her protest, \$20,000 was acqually read to her by Persian before

CONTRACTORS' POSITION.

Mr. Powell made the following statement last night of the position of the contractors:

"We have determined that this sewer cannot be put through according to contract under present plans.

"The city has defaulted on us in many ways, the manner of which will be made known at the proper time."

The contractors have given a bond in the amount of \$100.000 to complete the outfall according to contract. Contractor Stansbury notified the bondsmen yesterday that work on the outfall has been abandoned.

The city probably will make an effort to collect on this bond in order to recoup itself for the defalcation of the contractors.

Contractors Give Notice That Sewer Cannot Be Completed as Planned and Take Every Man Off.

THE outfall sewer bubble has burst. Contractors Stansbury & to the City Hall and notified the Engineer. Mr. Stafford promptly reported the condition of affairs to the Board of Public Works.

The city has been thrown down. The need of it is serious. Bungled by the engineers, preyed upon by politicians, forsaken by welching contractors who won't play out a losing game, the sewer is the sorriest disappointment the city ever had. When it will emerge from the snarl of litigation and blundering no prophet can predict.

Saturday 150 men and fifty teams were working on sections Nos. 2 and 4. When the city inspectors reported on the contractors assert that it cost the contractors assert that the contractors assert

Doran Declines the Position.

H. J. Woollacott, for ten years president of the State Bank and Trust Company, and since last February first vice-president of that institution, has resigned. He will devote the greater portion of his time to his personal interests in Southern California.

The resignation of Mr. Woollacott was tendered in June, and at the last meeting of the board of directors was accepted it will be effective August 1.

The cause of Mr. Woollacott's action is given as a desire to have more time to attend to his private business interests in Mexico and Southern California. He will retain his seat on the bank's board of directors, and also remain a member of the Finance Committee, retaining his stock in the institution.

Fighting flames desperately in the very face of death, Mrs. M. E. Phillips, proprietor of a lodging-house at No. 325% Temple street, frustrated the efforts of incendiaries and saved the building from possible destruction last evening. She was slightly burned. Having extinguished the flames in one room, the woman rushed into the hallway and found it filled with smoke from another fire. She ran into a room at the rear, used for a storehouse, and saw, piled about a large can of coal oil, heaps of blasing boxes.

Mrs. Phillips at once began to pitch

BPOILED BY BURSTING HOSE.

Mrs. E. C. Clark yesterday received from the city 115 for the destruction of a silk dress. A few weeks ago, as she stood at Third and Spring streets, where city employes were flishing the street with a large hose, the thing burst wide open and deluged Mrs. Clark and her new silk dress. She made a demand on the treasury for 115 to pay for the damage, and after an investigation by the City Attorney and investigation and recommendation by the Board of Public Works, and the approval of the City Council, she pocketed the cash yesterday. The Roard of Public Works laid the trouble to a piece of rotten hose taken from the fire department.

Police Commissioner Hurt.
Saloon "restauranters," who were trembling in their boots for fear of what Police Commissioner Mason might do to them at the meeting of the board tonight, are now claiming that they have no fears of the board's action.

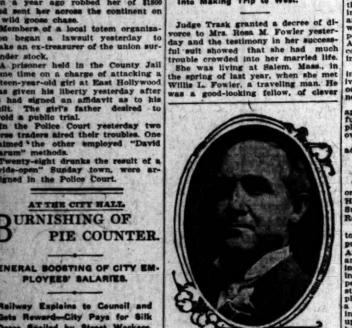

While Mr. Mason was returning from church on Sunday, turning over in his mind how he was going to take a peep at some of the beery Sunday doings at the "restaurants," the horses attached to his carriage became frightened and ran away. Mr. Mason was thrown out and three of his ribs were broken, but none of the other occulpants was thrown from the vehicle.

The Chief of Police will make a report to the board tonight, based upon his investigation of the beer restaurants, but Mr. Mason will not be there to have a hand in its consideration.

Judge Conrey is thinking it over. He frankly stated yesterday that he inclined to the idea that "tout-ensemble," so to speak, suggested to his mind the idea that the evidence had been arranged.

Mrs. Short became firmly convinced that her husband was too gay and frolicisome for a middle-aged and married man. To ease the strain on her mind she engaged a smart young fellow named Grinnell to pipe off hubby, and the detective came to the house as a roomer. He took the room on a Monday, and on Wednesday a Mrs. F. H. Caler—that was the name she went by—called upon him. He took her to the theater, and on the Friday following she hat switched off to Mr. Short and was talking to him while Grinnell watched. He heard them make an appointment for Third and Main streets. In the spring many women buy just about half of what they need for their cummer ward-robes—selecting from the new things we show at that time. Along about this time they come in and buy the rest—taking advantage of the greatly lowered prices, on goods of the latest styles and finest qualities. Some of these, being bought late, can be made to do over until another season. The garments that are left are in every way as good as those that preceded them. The only thing wrong with them is that they have stayed a little too long. and there are a few more of some of them than there should be at this time of the year. That's why all of these are bargains, it's simply a case of selecting the ones you want.

Cecil Green turned in 800 points yesterday, after a silence of several days, and moved up five places. Cecil is a fine vocalist, and a musical, entertainment, under the auspices of the Bishop I. B. Scott Club, is to be given for her benefit Tuesday evening, July 31, at Wesley Chapel, when she will sing some of her best selections, and all who are interested in this young colored girl will be given an opportunity to hear her sing, as well as other talent of a high order. Cecil's father was the first colored policeman in Los Angeles. He is now dead, and Cecil is trying to win a musical scholarship in order to further train and develop her voice.

Her picture shows Laura, with bag in hand all ready to write out your receipe for a year's subscription.

I make definite claims for my method of treatment, and positively know just what I can do when I personally treat a condition. I have made it a point through a long experience not to guess, but to know why I give a treatment and what for. This I consider the key to my success in effecting cures in some of the most aggravated cases of chronic troubles. CONTRACTED DISEASES—It matters not how long you have suffered or how many doctors have disappointed you. I CURE quickly and thoroughly.

A Lifelong Cure

OTHERS MAY TREAT, BUT WE CURE

You must come to us sooner or later. Why not now? Refuse to suffer longer on promises of others.

Our Best Reference is: Not a Dollar Need Be Paid Until Cured.

There are many men suffering from chronic Pelvic diseases, and the greater number of these victims are still more unfortnate in treating with doctors who knew only enough to produce temporary results, or a false cure, if they succeed in benefiting the sufferer at all. There is no such thing as a partial cure of a disease, and the physician whose method does not eradicate every vestige cannot rightfully claim to do more than relieve. Our Pelvic Methods Insure Every Man.

Last year people were extremely negligent about paying their dog taxes and were inclined to shirk payments until they were personally called upon by the officials of the society. Many people who would not have been willing to risk having their pets caught, by the dog-catcher seemed quite willing to take the chances of being arrested themselves. The Humane officers are out in earnest, now, and there will be an interesting time for delinquents after next week.

In making her escape the woman knocked down one of the nurses. It is known that she was in the institution against her wishes, but the reason why she left has not developed.
